

HEARTLAND FOOTWEAR

EVAIR

Introducing our groundbreaking EVAir Boot, a game-changer in footwear innovation. Crafted to be 40% lighter than commonly used EVA boots* and half the weight of traditional PVC boots**, our design prioritizes comfort without compromising durability. Engineered with a durable EVA upper that is waterproof. This boot is tailored for demanding environments including dairy/protein processing, frozen foods, petrochemicals, and oils/gas industries. Its proprietary vulcanized rubber outsole ensures superior slip resistance, efficient debris evacuation, and abrasion resistance, providing extraordinary grip on dry, wet, and slick surfaces. Plus its EVA material regulates temperature, keeping feet warm in cold weather and cooler in the heat, making it the ultimate choice for all-day wear.

- 40% lighter than commonly used EVA boots & half the weight of traditional PVC boots.*
- Our EVAir Lite Boot is designed to be a robust light boot that is comfortable all day long
- Durable EVA upper that is waterproof
- Ideal Applications: dairy/protein processing, frozen foods, petrochemicals, and oils/gas
- Proprietary vulcanized rubber outsole delivers SUPERIOR slip resistance, debris evacuation, and abrasion while providing extraordinary grip on dry, wet, and slick surfaces
- Superior material that keeps the foot warm in cold weather and cooler in the heat
