

HEARTLAND FOOTWEAR

WORK LITE

Introducing the next generation of footwear innovation, these revolutionary boots redefine comfort, sustainability, and performance. Crafted with meticulous attention to detail, they boast a design that is 30% lighter than traditional PVC boots, offering unparalleled agility without compromising on durability. What sets them apart is their commitment to environmental responsibility; being 100% recyclable, they minimize their carbon footprint while maximizing utility. Step into unparalleled comfort as the high rebound, breathable insole envelops your feet, providing a cushioned oasis with every stride. Moreover, these boots are engineered with superior abrasion resistance, ensuring longevity and reliability even in the harshest conditions. Prepare to experience the future of footwear – lighter, greener, and more comfortable than ever before.

- 20% lighter than traditional PVC Boots, slightly heavier than commonly used EVA boots.
- In many environments (but not all) is more durable than EVA or PVC
- 100% recyclable
- High rebound and breathable insole enhances user comfort
- Better abrasion resistance than PVC boots
- Made in USA
